Efficient Work Flow with Extended Mode on Dual HDMI and One VGA External Display

The EZQuest Ultimate Plus Dual HDMI USB-C Multimedia Hub Adapter connects your M series Mac or Intel based Macs as well as Windows computers that are equipped with USB-C, Thunderbolt 3 or 4 to create extended mode displays and expand your work throughout the 2nd and 3rd or even 4th display so you can work faster and more efficiently with up to 4K 60Hz for 1st HDMI display on DP 1.4 and 4K on 2nd HDMI port as well as VGA port on M series and Intel based Macs as well as Windows computers. You can also mirror your computer display to your external display, TV or projector via an HDMI or VGA cable (sold separately).

Latest Power Delivery 3.0 with Fast Role Swap

The Ultimate Plus Hub features the latest USB-C Power Delivery version 3.0 with pass-thru charging up to 100 watts. It also utilizes the USB PD 3.0 Fast Role Swap technology.

Stream, Connect, and Charge

The EZQuest Ultimate Plus Dual HDMI USB-C Multimedia Hub Adapter comes with the latest USB-C Power Delivery version 3.0 with pass-thru charging up to 100 watts (20V/5A) for quickest and safest charging and FRS technology. The high speed Gigabit ethernet lets you have uninterrupted internet or network connection with LED indicator that shows the connection status. Also it features simultaneous read and write SDHC or Micro SDHC card readers. Four USB-A 3.0 ports allows for 5Gb/s data transfer rate on each port while connecting to charge or sync your smart devices thru the USB-A ports. This hub is also equipped with a 3.5mm Audio Jack/Microphone (2 in 1) to connect wired external audio devices. Our audio jack won't disable any internal speaker on your computer unless an audio device is connected. The EZQuest Ultimate Plus Dual HDMI USB-C Multimedia Hub Adapter comes with a one meter nylon braided USB-C cable so you have the ability to set up your hub on your desk any way you like.

The EZQuest Ultimate Plus Dual HDMI USB-C Multimedia Hub Adapter will allow you to take full advantage of your MacBook Pro, MacBook Air, or iMac regardless of being M series chips or Intel based Mac computers. This hub is also a perfect choice for Windows computers.
